6320-MB: Matte Black

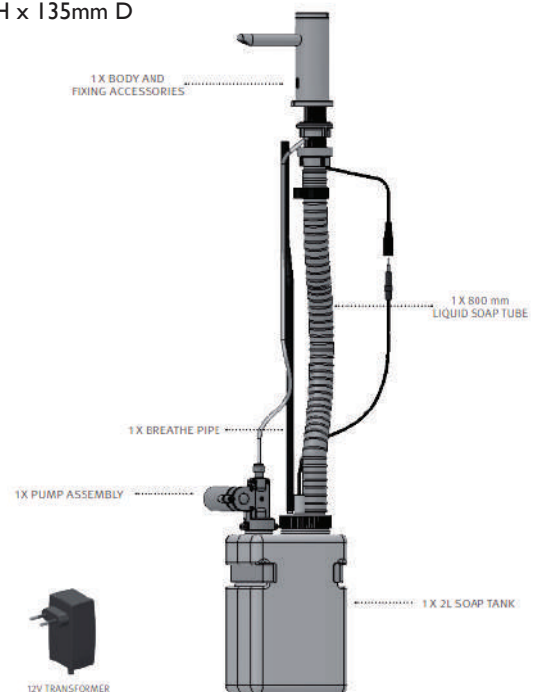

PRODUCT FEATURES:

- Polished Chrome Finish
- 2 litre soap tank
- Vanity Mounted
- Includes soap level indicator in the dispenser
- 100% Brass Body Construction
- Dosage and sensor range are adjustable with remote control

Overall Dimensions:

44mm Diameter x 124mm H x 135mm D

PRODUCT DATA:

CONSTRUCTION:

100% brass body construction in a Chrome finish

CAPACITY:

2 Litres.

We recommend Bradley PB609 Soap.

OPERATION:

The 6320 Touchless soap dispenser is operated by an infrared sensor.

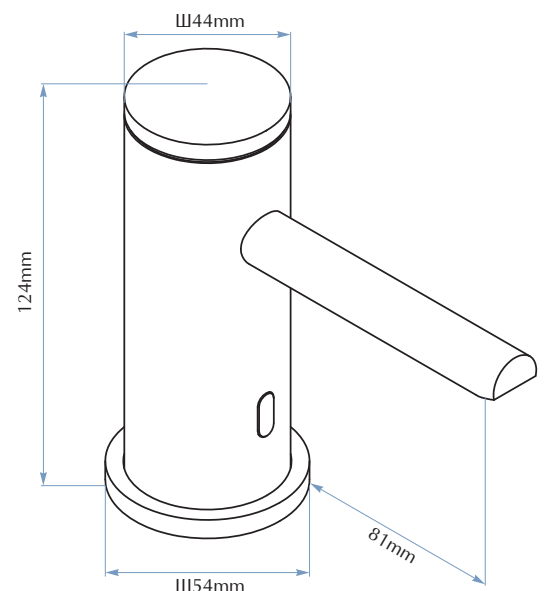

The Soap dispenser automatically activates when the user places their hands within sensor range, providing a measured amount of soap (adjustable by remote control). If the user removes their hands before the full amount is dispensed, the Soap dispenser immediately stops the flow. The level indicator at the dispenser base shows green when the tank is full, orange when the level is low and red when a refill is needed.

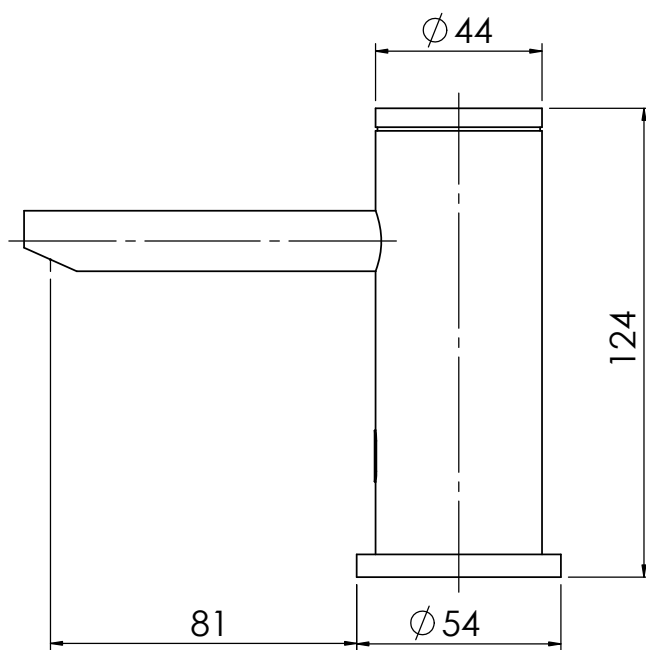

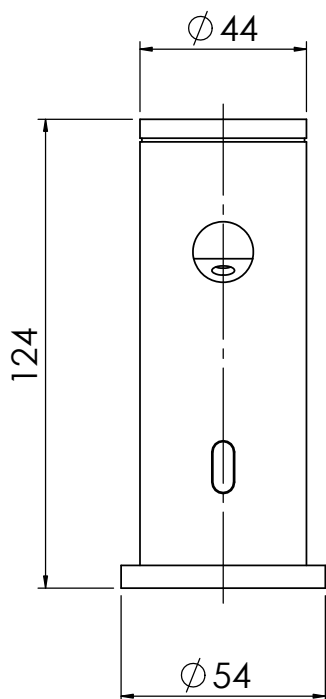

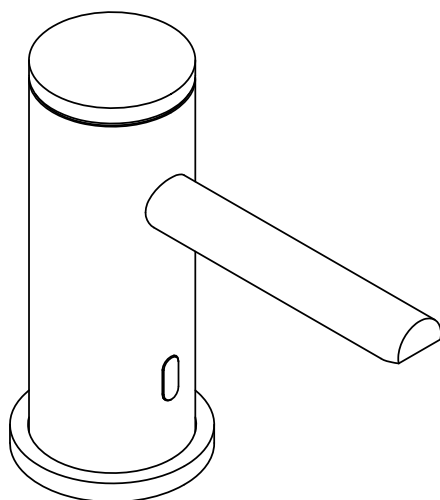

Power source: 12 V transformer

Default soap dosage: 1.2-1.6cc

Soap viscosity: 100-3800 cPs

Prime dispenser prior to use.
