PRODUCT DATA:

DESCRIPTION:

Top filling kit for multiple soap dispensers. Supports up to six soap dispensers and can be combined with deck mounted or wall mounted soap dispensers. Includes a 6 litre soap tank and top filling mechanism with anti-theft cover.

OPERATION:

To fill in the soap tank, simply open the top filling cover using the allen key provided and pour soap in. No need to remove the container from below the counter.

MODEL 633-TFMK-IND TOP FILL SOAP KIT WITH LED LIGHT INDICATOR

Options:

633-TFMK-LED-MB (matte black)

633-TFMK-LED-SBN (satin brushed nickel)

- Other finished available

REFILL INSTRUCTIONS:

Light Indicators:

Green - enough soap in the tank

Orange - low soap level

Red - empty tank

To refill the soap tank, unlock the cover on the top of the bench with the Allen key provided. Pour soap into the pipe. Close and lock the cover once done. If soap tank is empty with indicator light, you may need to prime the line to allow for smooth activation, pour to remove any air bubbles.

To prime the line, use 633-remote, Aline both remote & blue sensor light on the dispenser and press the FILL button. Press the FILL button again to stop priming.

Or to manual prime, press the priming button on the 633-PUMP.

Only available on sensor models.
